

# PROFIT SHARING CHURCH BENEFIT SALE

To show how much we appreciate the efforts of the Ladies' Aid Societies of the different churches in their benevolent work, we are going to give a portion of our gross sales for the first seven days of the next five months (April, May, June, July and August) to these societies to be divided equally. The Presidents of these Societies look on our plan with favor and have signed the following:

"We, the Presidents of the different and respective Ladies' Aid Societies, heartily approve and endorse the proposition of Mr. E. J. Fountain to give a part of his gross sales for the first seven days of each month for the next five months, beginning April 1st and ending August 31st."

### METHODIST CHURCH SERVICES.

Services of the Methodist church are announced as follows: Sunday school at 9:45 a. m. Preaching by the pastor at 11 a. m., subject, "Some Proofs of the Resurrection of Christ." Epworth League 7 p. m. Preaching 7:45 p. m., subject, "The Result of the Resurrection of Christ."

The Eagle learns that owing to the fact that the new church building will likely not be finished as early as anticipated, and for the further reason of avoiding conflict with the revival meeting beginning today at the Baptist church, and the Brazos Presbytery meeting beginning April 12 at the Presbyterian church, the opening of the Methodist church has been postponed one week, or until Sunday, April 21. Bishop Ward will preach the opening sermon at 11

o'clock on that date, and the revival meeting will begin immediately thereafter. As heretofore announced, Rev. Lovic P. Law will assist the pastor in the meeting.

### FOSTER'S WEATHER BULLETIN.

(Copyrighted 1907, by W. T. Foster.)

Washington, D. C., March 30.—Last bulletin gave forecasts of disturbance to cross continent 29 to April 2, warm wave 28 to April 1, cool wave 31 to April 4. Next disturbance will reach Pacific coast about April 2, cross west of Rockies country by close of 3, great central valleys 4 to 6, eastern states 7. Warm wave will cross west of Rockies about April 2, great central valleys 4, eastern states 6. Cool wave will cross west of Rockies about 5, great central valleys 7, eastern states 9.

April is usually a quiet weather month, but it will bring frequent and radical weather changes this year averaging very cold east of the Rockies and warmer than usual on the Pacific slope.

Second disturbance of April will reach Pacific coast about 6, cross west of Rockies country by close of 7, great central valleys 8 to 10, eastern states 11. Warm will cross west of Rockies country about 6, great central valleys 8, eastern states 9. Cool wave will cross west of Rockies about 9, great central valleys 11, eastern states 13.

While temperatures will frequently move up and down they will average unusually cool from about 1 to 8 with high temperature waves not far from March 31 and April 9. From near 10 to near 17 another long, low temperature period will occur. Near 22 and 23 a severe northern cold wave may be expected to carry frosts farther south than usual with very cool all over the east of Rockies country. These dates are for meridian 90 and you must count a day or two earlier for west of that line and a day or two later for east of it. The average temperatures will be high on Pacific slope while they are low east of Rockies and the month will average much colder east than west of the Rocky ridge.

Every storm wave of April will develop unusually great intensities in all its weather features. Rainfall will be deficient between meridian 90 and the Rockies and east of the Alleghenies. Illinois, Indiana, Ohio, and about the upper lakes rainfall will be from about to above normal. Altogether April will be a cold, backward month east of the Rockies and bad for all kinds of crops, while nearly the reverse will be true for Pacific slope.
